Telephone Interview Summary

Applicant thanks Examiner Minnifield for conducting an interview with Applicant's representatives, Oona Johnstone and the undersigned, on October 28, 2008. During the interview, the status of composition claims 5, 13 and 15 was discussed. Applicant's representatives asserted that since generic claim 1 was considered allowable, dependent claims 5, 13 and 15, which recite species that fall within the scope of generic claim 1, should also be considered allowable. Examiner Minnifield agreed and indicated that all of the pending composition claims were now considered allowable. The method claims were also discussed during this interview. Applicant's representatives suggested amending claim 46 to incorporate the features of original claim 53, thus reciting "wherein the subject has or is at risk of developing a cancer". Examiner Minnifield indicated that she would consider this claim amendment.

CONCLUSION

In view of the above amendment, applicant believes the pending application is in condition for allowance.
